And passion for life is that cognitive and affective emphasis emerging from a definite idea of existence and from a definite judgement on life value. From this the Centro Culturale di Milano starts again every time in order to know, to meet and to stir up everyone who desires to look at the reality in such a way. It's not only learning's capacity. It's rather the result of a full awareness of the fondness of the experience we are living inside such reality and inside the history.
